DETAILED ACTION

1. Claims 1-42, 45 and 46 are pending.

Section I: Non-Final Rejection

Claim Objection

2. Claims 29-33 are objected to because of the status of claims is unclear. The status identifier states cancelled while displaying claim language. These claims were not examined on their merits.

101 Rejection

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1-28,34-42,45 and 46 are rejected under 35 U.S.C. 101 because claims reflect functional language that is directed to an abstract idea with no practical application. Furthermore, the claims are silent to a final result, improvement or solution to which the invention is attempting to solve.

102/103

5. Applicants are thanked for addressing these issues. Rejections are withdrawn.
